## StoColor – farver til interiør 2022

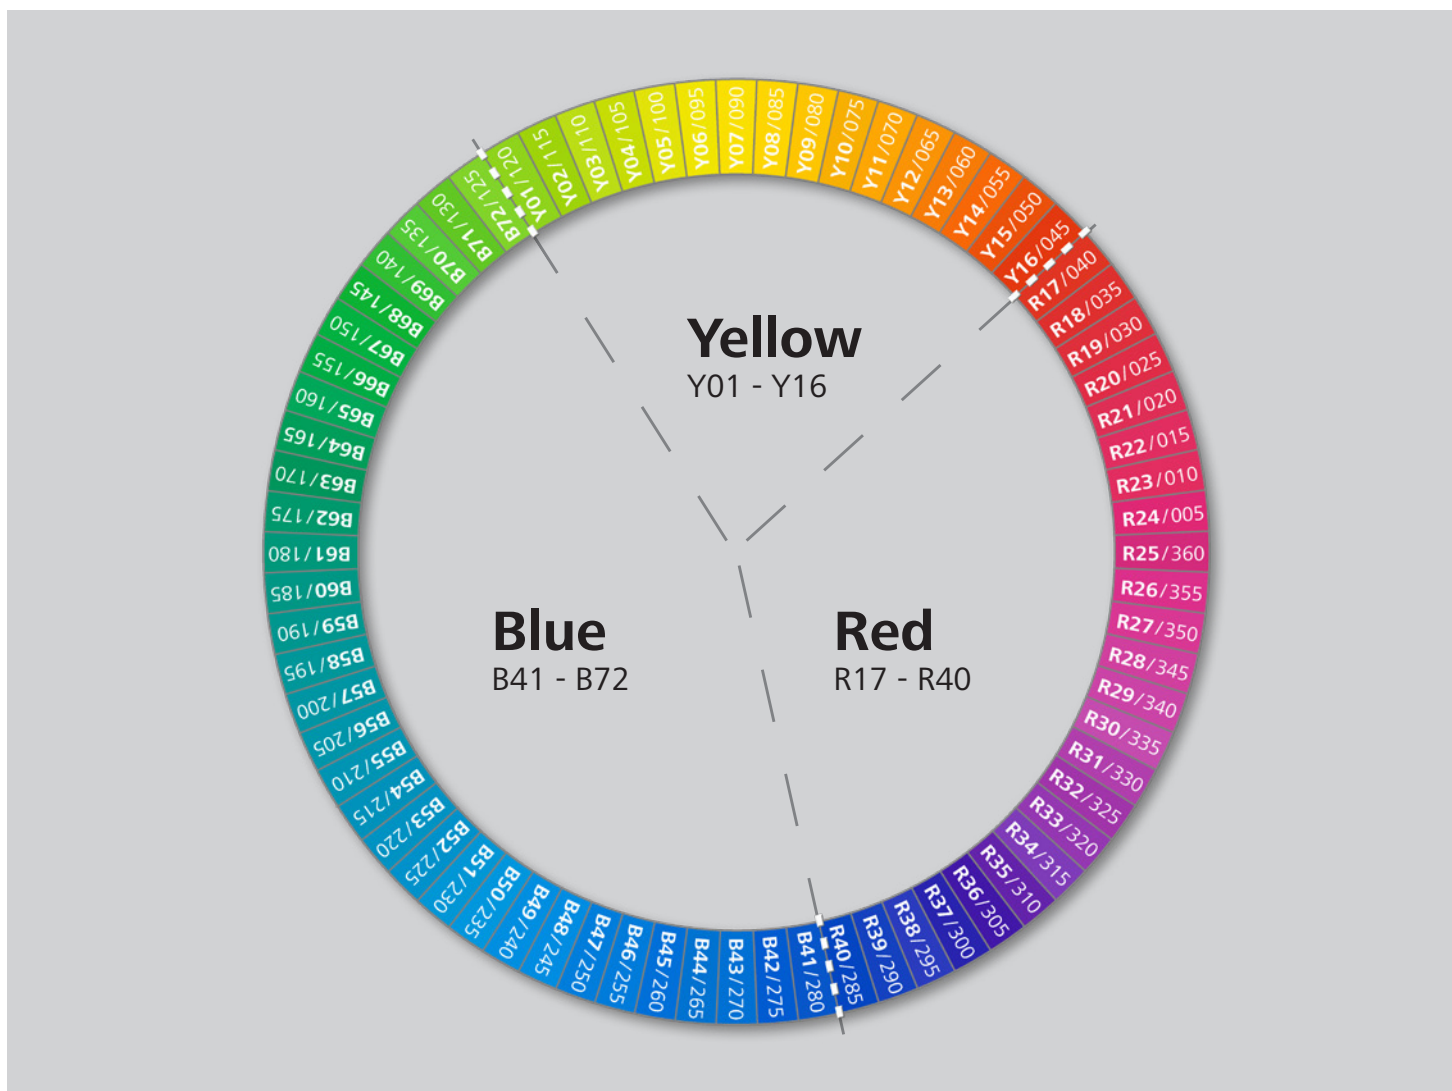

Farveviften til interiør består af 225 farvenuancer, som er blevet specielt udvalgt til farvesætning af indvendige miljøer.

Farverne er et supplement til StoColor System, med 1000 farver. Du kan med fordel søge inspiration i dette system også.

Systemet er baseret på et farvehjul, der med basis i de tre grundfarver, **gul (Y)**, **rød (R)** og **blå (B)**, er inddelt i **72 basisfarver (Y01-B72)**. De 72 basisfarver er varieret med lys-mørke og farvemætning. Systemet indeholder desuden en klar grå-række, **neutral (N)**, med sorte, hvide og grå nuancer uden farve. Endeligt er der inkluderet historisk vigtige og materialespecifikke farvenuancer i systemet.

## Vigtigt

Af tekniske årsager (skærmmodel, skærmindstillinger osv.) kan de viste farvenuancer afvige en smule fra de originale versioner. Farvenuancer kan også afvige lidt fra de originale versioner på grund af materialets art og printets begrænsninger. Ved genbestilling af samme farvenuance bedes du altid oplyse ordrenummeret på den sidste ordre. Vær opmærksom på, at variationer i underlagets type og tekstur samt tekturen af de enkelte belægninger kan forårsage variationer i farvenuancen, og at farver kan ændre sig over tid.

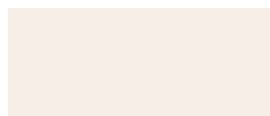

Ingen krav vedrørende farvenuancevariationer som følge af ovenstående årsager vil blive accepteret.

Anvendelsesvejledningen/Tekniske datablade skal overholdes og kan rekvireres fra Sto Danmark.
